Mathai, a candidate at the Matriculation and Intermediate Examinations of 1917, who appeared in Pali only at the Matriculation Examination, held on the 1st of March and 30th of March, 1917, praying that, as it will be very difficult for him to come to Calcutta from Travancore, where he is at present living, for the purpose of again appearing in Pali at the Matriculation Examination, he may either be exempted from appearing again in Pali at the Matriculation Examination this year, or be allowed to sit for Pali at the Matriculation Examination in 1918 at the Third-year's stage of his college study.

**RESOLVED—**

That the application be refused.

1733. Read an application from Bhutnath Majumdar, who, after being unsuccessful at the Matriculation Examination in 1916, has since then been serving as a teacher in the Banwaribad H. E. not deposit his fees for admission to the Matriculation Examination, 1917, on account of illness, although he had been allowed by the school authorities to appear at the Examination, praying for permission to sit for the Matriculation Examination in July, 1917, on payment of the usual fee.

RESOLVED—

That the application be refused.

1736. Read a letter from the Head Master, Brindabanchandra High School, Pakutia, stating that Mohinimohan Saha, who could not secure a seat in the Class VI of any School and Amarendranath Karmakar, who was compelled to leave the Manikgunj High School owing to ill health, were admitted to the Class VI of the school in excess of the prescribed maximum number of students, and requesting that, as they are local boys and cannot, with advantage, prosecute their studies elsewhere, he may be allowed to retain the two boys in the Class VI of his school in excess of the prescribed limit.

RESOLVED—

That the provisional admission of Mohinimohan Saha and Amarendranath Karmakar to the sixth class of the Brindabanchandra High School, Pakutia, in excess of the number prescribed for the class be sanctioned.

1737. Read a letter from the Principal, A. M. College, Mymensingh, forwarding applications from the following students of the Second-year Class of the College, who, after completing the percentage of their attendance at lectures, could not appear at the last I.A. 1740. Read the following report on the Burdwan Raj College for 1916-17 and 1915-16 :—

**Report on the Burdwan Raj College for 1916-17 and 1915-16.**

(INSPECTED ON THE 23RD APRIL, 1917.)

The college is affiliated to the I.A. standard in English, Vernacular Composition, Sanskrit, Persian, Mathematics, History and Logic. It does not teach any Science subject.

1. *Governing Body.*

The Governing Body known as "the Burdwan Raj College Council" consists of 8 members with the Hon'ble Sir Maharajadhiraj Bahadur of Burdwan as President. It held 9 meetings during the session 1915-16 and 6 meetings during the present session 1916-17. The following gentlemen are the members of the Governing Body :—

1. The Hon'ble Sir Bijaychand Mahatab, K.C.S.I., K.C.I.E., I.O.M., Maharajadhiraj Bahadur of Burdwan—*President*.

2. Babu Debendranath Mitra, Government Pleader.

3. Babu Jagadbandhu Mitra, L.M.S., Assistant Surgeon.
  4. Babu Hrishikes Chatterjee, B.L., Senior Asst. Manager, Burdwan Raj.
  5. Babu Umacharan Bauerjee, M.A., Principal, Burdwan Raj College—  
*Secretary*
  6. Babu Kaliprasanna Ganguli, M.A., Professor of Mathematics.
  7. Babu Upendranath Banerjee, M.A., B.L., B.T., Officiating Head Master, Burdwan Raj Collegiate School.
  8. Moulvi Sayed Abdul Mowla, late Vice-Chairman, Burdwan Municipality.
- A copy of the rules is given below :—

### “Burdwan Raj College Council.

#### RULES

#### A

The Constitution :

I. The Governing Body of the Burdwan Raj College shall be called “*the Burdwan Raj College Council.*”

II. The Members of the College Council shall be elected every Third-year by the Hon'ble the Maharajadhiraj Bahadur.

III. Every member shall have the right of one vote and the President of the casting vote.

IV. The number of the members shall not exceed seven, of whom at least two shall be members of the college staff. The President shall be elected at every meeting from amongst the members present, by a majority of votes. Three members shall form a quorum. At adjourned meetings, two members present shall form a quorum. The Principal of the college shall act, ex-officio, as Secretary to the Council.

#### B.

The Method of Business . -

I. All meetings of the College Council shall be held on the last Friday of every month; but if that be a holiday, on the next working day. In urgent cases, a special meeting may be called.

II. The exact time and place of every meeting shall be notified by the Secretary. All meetings shall be held, as a rule, in the college premises at 4 p.m. in winter, and 5 p.m. in other seasons.

III. All important matters relating to the efficient management of the college, shall be put up before the Council by the Secretary, either at the instance of the Principal or of any other member.

IV. The proceedings shall be duly recorded in a book.

V(a). No matter shall be discussed at an ordinary meeting unless it has been circulated amongst the members, at least three days before the date of the meeting.

(b). All proceedings of the meeting shall be submitted at the next meeting for confirmation and signature. A resolution duly passed at a meeting shall not be re-opened within three months, unless a requisition duly signed by one third of the members be sent to the Secretary for its reconsideration.

VI. Any member failing to be present without leave of the Council at four consecutive meetings shall cease to be a member; but he shall be eligible for re-election.

(a). In case of a permanent vacancy, a new member shall be elected by the Maharajadhiraj Bahadur. Temporary vacancies up to two months are to be filled up by the Council.

VII. Any disorderliness of a political nature on the part of the students shall be first dealt with by the Principal and then reported to the Council.

VIII. The Governing Body existing for the time being shall continue to exercise their powers until a new Body is formed

(a). All proceedings of the Council shall be submitted to the Maharajadhiraj Bahadur and his remarks thereon, as well as all inspection remarks, shall be circulated amongst the members.

### C.

#### Powers and Duties :-

I. Of the total number of free studentships, (i.e., 50), fifteen (15) shall be at the disposal of the Governing Body, and the remaining of the Maharajadhiraj Bahadur.

II. The Council shall take proper and necessary steps for the promotion of religious, moral, and physical culture amongst the boys.

III. Temporary vacancies for a period not exceeding one month will be filled up by the Principal; for a longer period or periods by the College Council; but in the case of such temporary appointments which exceed 6 months formal sanction of the Maharajadhiraj Bahadur will have to be obtained.

IV. The College Council shall have the power of promoting or suspending an officer of the College or the Collegiate school, but the power of dismissing or permanently appointing an officer shall rest with the Maharajadhiraj Bahadur.

V. The Principal shall invite suitable candidates for all vacancies and submit his nominations to the Council.

VI. The annual and other necessary reports of the College and the Collegiate school shall be submitted to the Maharajadhiraj Bahadur through the College Council.

VII. All matters relating to the leave of absence of the officers shall be governed by the Raj Leave Rules.

VIII. The College Council shall have the power of granting casual leave for 8 days in a year and sick-leave for 12 (twelve) days in a year to the officers of the Institution, in accordance with the Raj Leave Rules."

The rule No. 4 (A) limits the number of members to seven and further requires that the President shall be elected at every meeting from amongst the members present. But from the Returns submitted, it appears that there are now 8 members and that the Hon'ble Maharajadhiraj Bahadur is the permanent President of the Council. We drew the attention of the Principal to this discrepancy. He has promised to make a reference to the Council to make the necessary alterations in the rules. We were told that under the present arrangement, which has been in force for some years past, the Hon'ble Maharajadhiraj Bahadur is the President. He attends the meetings regularly and takes a keen interest in the affairs of the college.

There is no council of the members of the teaching staff; but we are told that the members often meet and discuss matters informally. It is desirable that there should be a regularly constituted Council of the staff. They should meet from time to time to deal with matters relating to the internal management of the college. The proceedings of such meetings should be duly recorded and submitted to the Governing Body for their information.

## II. Accommodation.

The College and the School are held in the same building. This does not appear to us to be a drawback in the case of this college as the building is an extensive one and the school classes are held at a considerable distance.

The nine rooms in which the college classes are held are of the following dimensions :—

(1) First-year Class	12' x 20' =	840 sq. ft.
(2) Second-year Class	54' x 20' =	1080 "
(3) Tutorial Class	20' x 20' =	400 "
(4) Common room	20' x 20' =	400 "
(5) Persian Class room	20' x 20' =	400 "
(6) Principal and Professors' waiting room	20' x 20' =	400 "
(7) Office of the Principal	20' x 20' =	400 "
(8) Library	33' x 20' =	660 "
* (9) Laboratory	42' x 20' =	840 "

Rooms No. 5 and 8 are common to both College and School.

## III. Teaching Staff.

(i) *Changes*—Babu Umacharan Banerjee, Principal and Professor of Sanskrit, was on leave for January, and February, 1915. Babu Kaliprasanna Ganguli, Professor of Mathematics, officiated as Principal, and Babu Naliniranjan Bhattacharyya, M.A. in Sanskrit, Group A., (Class III, 1913) acted as Professor of Sanskrit during the period.

Babu Girindrakumar Chatterjee, M.A., B.L., Professor of History, was on leave for 6 months from 24th July, 1916 to 23rd January, 1917. During the period, Babu Panchanan Chaudhuri, M.A., B.L. (History, Class II, 1912), acted temporarily as Professor of History from 24th July to 29th September, 1916, and Babu Gopalkinkar Mukerjee, M.A., B.L. (History, Class II, 1911), from 10th November, 1916 to 23rd January, 1917. Babu Girindrakumar Chatterjee has been granted further leave for one year from 24th January last. During this period, Babu Gopalkinkar Mukerjee acted temporarily from 24th January to 9th March, 1917, and Babu Sailapati Chatterjee, M.A., B.L. (History, Class II, 1912), has been appointed to act temporarily with effect from 10th March, 1917.

There have been too many changes in the staff of History on account of leave granted to Babu Girindrakumar Chatterjee who, we are told, has joined the Bar. We are of opinion that he should not be given further leave and that a permanent arrangement should be made on the expiration of the leave already granted.

\*The college is not affiliated in any Science subject. But as there are some old Science apparatus, the Professor of Mathematics delivers lectures on Physics and Chemistry one day in the week to the students who care to attend them.

(ii) The teaching staff in each subject and the work done by them from July to December, 1916 are given below.

6	Moulvi Abdul Majid, Persian Lecturer.	1st-year	Persian	4	2	12	(e) Students' attention is drawn to correct reading and pronunciation. No of batches into which the class is divided for tutorial work.
		2nd-year	"	5	1		
							In English and Logic each class is divided into four batches, and in Sanskrit, Mathematics and History, each class is divided into 2 batches.
							No. of students in each batch
		1st-year	English and Logic				22 students in each batch.
			Sanskrit				42 students in each batch.
			Mathematics				24 + 25 students in each batch.
		2nd-year	{ English } & Logic				21 + 21 + 21 + 20 students in each batch.
			Sanskrit				20 + 22 + 18 students in each batch.
			Mathematics				22 students in each batch.
			History				20 students in each batch.

The Principal, who teaches mainly Sanskrit, lectures to the first-year Class only 4 periods a week and to the second-year Class 5 periods. Besides he takes tutorial work for one period in the First-year with 2 batches of 42 students each taken fortnightly, and for 2 periods in the second-year with 4 batches of 21 students each also taken fortnightly. It is desirable that Sanskrit should be taught in First-year Class for at least 5 periods and the batches should not consist of more than 21 students for tutorial purposes. If this suggestion is accepted, the Principal's work in Sanskrit will increase by 2 periods a week. In addition to his Sanskrit work he takes English in the second-year Class for one period a week.

The Professors devote a part of their time to the school.

The Professor of English who has to work 18 periods in the college has also to take 2 periods in the school every week. In our opinion he should not be made to work more than 18 periods.

The Professor of Logic who teaches 14 periods a week in the college has also to take 4 periods in the school. We suggest that he should be relieved of his work in the school to enable him to pay more attention to the tutorial work in the college. As every student in the college takes up Logic, each class, consisting of about 88 students, may be divided into 4 batches to each of which tuition of one period per week should be given. This would require 8 periods. At present he gives them only 4 periods.

The Professor of History, who also teaches Bengali Composition, has 14 periods' work in the college and 4 periods in the school. In our opinion he should be relieved of his school work and be allowed to help the Professor of English in doing tutorial work. At present the students of the two classes divided into 8 batches get 5 periods tutorial in English from the Professor of English and if they get in addition 3 or 4 periods from the Professor of History, each batch will get tuition of one period a week, which is very desirable especially in a subject like English.

The Professor of Mathematics has 13 periods work in the college and 4 periods in the school. He gives lectures of 5 periods and tuition of 1 period to each of the two classes. The number of lectures is manifestly insufficient. He admitted to us that he found great difficulty in finishing the course. We would suggest that he should give up his school work and devote more time to college. His lecture work should be raised to 6 periods in each of the classes and if possible the tutorial work raised to 2 periods in each of the classes.

#### IV. Numerical strength and subjects taught.

On the 31st July, 1916, there were 171 students on the Rolls of the College as against 147 on the same date in the last year. The following Tables show the numbers as they were distributed in the different classes and subjects on those dates in the two years :-

## VI. Library and Common Room

## (a) LIBRARY.

The total number of books in the Library was 4479 on the 31st May, 1916. Some old books have been rejected. Since the last inspection of the College on the 25th November, 1914, 429 copies of books to the value of Rs. 679-0-9 have been purchased. The yearly grant is Rs. 300.

The rule requiring a deposit of Rs. 2 for borrowing books for use at home has been abolished. The effect has been that 103 students took out books from the Library last year as against 24 students in the previous year. The number of books borrowed similarly have increased from 239 to 618.

There is no separate Reading Room for the students. But there is room in the Library where a dozen or more students could comfortably read.

## (b) COMMON ROOM.

The Common Room is provided with the following periodicals.—

1. Statesman (Daily Edition).
2. Calcutta University Magazine.
3. Collegian.
4. Calcutta Gazette, Part I. C.
5. Punjab Educational Journal.
6. Strand Magazine.
7. Wide World Magazine.
8. "Sahridaya" Sanskrit Magazine.
9. Grihastha.
10. Prabashi
11. Bharatvarsa.

## VII. College Clubs.

### (a) DEBATING SOCIETY.

There were five meetings of the Debating Society during the year 1915-16 in which the students and the Professors took part.

### (b) ATHLETIC CLUB.

Every student contributes twelve annas a year to the funds of the Athletic Club and there is an annual grant of Rs. 50 from the college.

There is an open Gymnasium with an annual grant of Rs. 20 for apparatus. A Games-master teaches Gymnastics.

There are one tennis court and one badminton court on the ground in front of the College.

There is a football ground in the compound of the Nirmal Bagh Mess. It is 70 yards by 69½ yards.

The Principal is the President of the Club. Prof. S. P. Chatterjee, M.A., Vice-President, and Babu N. G. Banerjee, Games-master, Secretary. Students play tennis, badminton, foot-ball, cricket, etc.

## VIII. Residence of students.

Of the 171 students on the rolls of the College, 40 resided in the unattached mess, 42 with their parents and 89 with their guardians.

The unattached mess is housed in a big two-storeyed building in Nirmal Bagh—a beautiful garden belonging to the Maharajadhiraj. It has a splendid foot-ball ground attached to it. The Maharajadhiraj Bahadur pays the salary of a Resident Assistant Superintendent, Babu Prankrishna Pandit, and pays also the establishment charges. The students have to pay no rent. They arrange their own messing. We do not understand why the Governing Body of the College do not apply for the recognition of this "Unattached Mess" as a Collegiate Hostel.

The building has been connected with the water works of the town at a cost exceeding one thousand rupees.

The Gate-book is properly kept. Babu Nanigopal Banerjee, M.A., Professor of Logic, is the Superintendent of this Mess. He comes occasionally. The local students are well known to the Principal. But as there is no agency to supervise the residence of students in general, we suggested to the Principal that the student might be divided into groups, placed under particular professors who should from time to time supervise their residence.

## IX.

Babu Kaliprasanna Ganguli has continued his course of lectures on Physics and Chemistry. The College gives an annual grant of 36 rupees for the purchase of Chemicals, &c.

## X. Return of Finance.

The Return of Finance for the last three years is given in the Appendix.

It is proposed to remove the College to Chauliaganj—a site, near the Railway Station. The land is extensive and level. Quarters for the Principal and the Senior Professor have been constructed, and are already occupied. The proposal is to raise a big building for the College, to build quarters for a dozen Professors and two Hostels to accommodate 200 students in each. Bricks have been collected for the purpose. But on account of the War further operations have been stopped.

At the time of our inspection we found Pandit Adityanath Upadhyay, Lecturer in Sanskrit, transferred to B. B. College, Muzaffarpur. No one has yet been appointed in his place. But we were assured by the Principal that not only a successor to Pandit Upadhyay would be appointed in July, but that one Additional Lecturer in Sanskrit would also be appointed, thus bringing the total strength of the Sanskrit Staff to four members.

The Principal, Mr. Lambert, teaches two subjects, English and Botany. It is desirable that he should confine himself to one subject.

*IV.—Numerical Strength and Subjects taught.*

## VI. Science Departments.

*Chemical, Physical and Botanical Laboratories*—There is little to add to the full report submitted during the last inspection. All the Laboratories are being efficiently managed and kept neat and tidy. But the optical room has not yet been painted black nor a dark room for Photographic work provided, though these were the suggestions of the Inspectors and endorsed by the Syndicate. A few secondary cells have been obtained since the last inspection. But difficulty is found in charging them. We would repeat the recommendations of the previous Inspectors and urge upon the Government the necessity of providing a small electric installation and a screw cutting lathe for the workshop.

We found the seats in the Physics Lecture Theatre rather high. Those sitting on the back benches with punkhas swinging over their heads cannot see the experiments performed on the Lecture Table. But as the number of students in each of the junior classes is going to be limited to 40, there will be no need for the students to occupy the back benches.

One additional learner for the Chemical Laboratory, as recommended by the Inspectors, has been appointed.

An assistant for the Botanical Laboratory, as previously recommended, has been appointed. The work of the Department is carried on with the usual zeal of Rai Bahadur Jogesandra Ray and is highly appreciated by all, while Babu Saratchandra Majumdar and Babu Atulchandra Ganguli, Professors of Physics and Chemistry and the Demonstrators, Babu Naryan Misra and Babu Rajanikanta Basu spare no pains in keeping their departments in commendable efficiency.

The following Journals are subscribed for the Science students—

1. Journal of Physical Chemistry.
2. Journal of Chemical Society.
3. Journal of Chemical Industries.
4. The Analyst.
5. Nature.
6. Physical Review.
7. Scientific American with Supplement.
8. Science Abstract.
9. Philosophical Review
10. Electrician.
11. Annals of Botany.
12. Botanical Gazette.

## VII Library and Common Room.

## (a) LIBRARY.

The total number of books in the Library on the 31st May, 1916, was 9400.

During the last year 519 books were added to the Library and the amount spent for the purpose was Rs. 1,000. The books purchased come under the following different heads :—

History	..	90	Bengali	...	41
Biography	..	4	Persian	...	11
English Literature	..	62	Sanskrit	...	38
Drama and Poetry	...	24	Uriya	...	87
Fiction and Novels	..	26	Philosophy	...	20
Mathematics	...	35	Reference	...	30
Science	...	51			
					<hr/> 519

The fixed annual grant for the Library is Rs. 1,000.

There is no Reading Room attached to the Library. We pointed out the defect to the Principal, who agreed to fit a small room near the Library which might be made available for the purpose.

(b) COMMON ROOM.

The following papers are subscribed for the Common Room :—

The Statesman.	Literary World.
The Boys' Friend.	Hibbert Journal.
Illustrated London News.	International Journal of Ethics
Knowledge.	The Sahitya.
Nineteenth Century and After.	The Utkal Sahitya.
The Strand Magazine.	The Mukur.
Nature.	Indian Education.
The Spectator.	The Pioneer.

### VIII. College Clubs.

(a) DEBATING SOCIETY.

During 1915-16, 8 meetings were held under the presidency of the Principal or one of the Professors of the College.

(b) ATHLETIC CLUB.

There are playing fields connected with the College and students play Hockey, Football, Cricket, Tennis, &c., and take exercise in athletics. The College students won Prusty Cup and the Art Wares Shield in football; the Sudhansu Cup in Athletic sports and the Gurtoo Cup in Tennis.

Each student contributes Re. 1 to the funds of the Athletic Club, and the College pays an equivalent amount to that subscribed by the students (about Rs. 500 a year).

### IX. Residence of Students.

Of the 561 students on the rolls of the College on the 31st July, 1916, 153 lived in the two Collegiate Hostels, 35 in Unattached Messes, 78 with their parents and 295 with their guardians.

HOSTELS.

There are two blocks in the Hostel—the old Block and the new Block. Babu Atulchandra Ganguli, B A., Professor of Chemistry is the Superintendent and Babu Artaballabha Mahanty, M. A., Lecturer in Sanskrit, is Assistant Superintendent of the Hostel. The Superintendent lives in his family quarters close to the Hostel and the Assistant Superintendent in a room in the new block.

There is a commendable arrangement by which the supervision of the residence of students not living in the Hostels is conducted. The College Professors with this view are grouped in pairs. To each pair is given the charge of supervision of the residence of a number of students. This appears to us to be an efficient method not only for the purpose of supervision of the residence of students but also for bringing the students and the Professors into closer contact than is possible in a class room.

### X. Return of Finance.

The Return of Finance for the last three years ending on 31st March, 1916, is given in the Appendix.

1924. Read the following reports of Examiners on the Theses submitted for the Jubilee Research Prize for 1916 :—

## REPORTS.

## I.

I received five essays on the Geography of Kalidasa for examination and for the expression of my opinion as to which, if any deserves the Jubilee Research Prize of the Calcutta University.

1. Motto—"Bharata Parichaya."
2. Motto—"The Geographical part seems to be very accurately conceived."
3. Motto—"Their allusions to purely Indian topography are perfectly sober."
4. Motto—"Faber quisque fortunae suae."
5. Motto—"Advancement of Learning."

I have read all the papers carefully and with interest and am struck by the industry and clearness of conception of the candidates. They fully know what they are about and have tried to do justice to the important subject each according to his own light.

Nos. 2 and 3 seem to draw their inspiration from the same source. These essays seem to have a family affinity. They both divide the subject in three parts :—

1. Where Kalidasa follows Valmiki.
2. Where he follows tradition.
3. Where he is unfettered.

But they are very inferior productions. They do not show signs of wide and up-to-date reading.

The fourth is rich in references to Archaeological publications, but the author's reading does not seem to be particularly wide. After a page or so of Introduction he begins an Alphabetical Index of the Geographical names in Kalidasa and busies himself with their identification and references to them in other Sanskrit works. It is doubtful if he has read all the works of Kalidasa as carefully as he should.

The first a very creditable performance. The writer has gone through volumes of Gazetteers very carefully : but his conception of Geography is not liberal. He confines himself to geographical names only. The identification of Hastinapur, the discovery of the reading of Bankshubar Sindhu in *Sindhutirrichestane* and his references to Atharvana-parisishta are original.

The fifth essay seems to be only a draft ; the author has evidently had no time to make a fair copy and so it is full of abbreviations and slips. But the essay is a very superior one. The author prefaces his essay with an account the notions of early writers regarding the configuration of the earth, and the divisions of India. His essay is marked by great originality. He supplies much original information about the political divisions of India before Buddha from Mahagovindasutra, and he is the only writer among these, who has some notion of Indian cartology ; moreover he has very forcibly pointed out the difference between Kalidasa's map of India and the map of modern times. What is east to Kalidasa is south-east to us and in this way he has explained many of the discrepancies in the Geography of Kalidasa. He has also a wider notion of Geography as shown by the fact that he devotes a long chapter to the animals and plants of India, as described by Kalidasa. He freely quotes from Pali and Sanskrit works and his information in matters of Indian Archaeology are accurate and up-to-date.

I have, therefore, no hesitation in recommending the fifth essay for the prize. I should however make honourable mention of essay No. 1.

HARAPRASAD SHASTRI.

## II

There are altogether five theses, all of which bear evidence of careful investigations into the subject. The writers of the theses have all attempted successfully to identify the towns, rivers, mountains etc., occurring in the works of Kalidasa, with the help of archaeological reports, Imperial Gazetteers, works of travels and antiquities, Puranas etc.—Names of places have been arranged by some in the alphabetical order, while others have followed the consecutive order of the verses and others again have adopted the chronological order.

The thesis bearing the motto "Bharat Parichaya" and the thesis with the motto "Advancement of Learning" are however of special merit. The former has arranged the sources of information on the margin of each page after the fashion

of the Imperial Gazetteer, while the latter has given the references in the body of the dissertation. Both are rich in geographical information. The former follows the Puranas in its conception of the configuration of the earth and the geography of India, while the latter follows the Greek geographers, whose views are supposed to be coincident with those of Kalidasa.

In view of several original observations and advanced theories with regard to the shape of India and topography of Kalidas, contained in the latter, I recommend that thesis bearing the motto "Advancement of Learning" be awarded the Jubilee Research Prize.

The thesis bearing the motto "Bharat-Parichaya" deserves considerable praise.

SATISCHANDRA VIDYABHUSANA.

**RESOLVED—**

That the letter be forwarded to Babu Kallynauth Mitter, Solicitor, for a report.

1931. Read a letter from the Director of Public Instruction, Burma, stating that it is improbable that copies of the stolen question papers for the last Matriculation Examination were sent to Burma, that it would be possible from the answer papers already sent in to decide passes and failures of Burma candidates, that if the candidates are required to sit again, many will probably withdraw their names and demand a return of their fees and that if those of the Rangoon candidates who have dispersed to their homes in the mofussil are obliged to appear again they should be allowed to do so at the centres nearest their homes and not necessarily at Rangoon.

**RESOLVED—**

That the situation be explained to the Director of Public Instruction, Burma, and that he be informed that a candidate who wishes to change his centre will have to forward through the head of the institution in which they completed their study for the Matriculation Examination a fee of Rs. 5 to the University accompanied by a letter from a gentleman of position who is ready to identify the candidate at the new centre.

**RESOLVED—**

That the break in the period of studies of Anamul Haque be condoned.

1933. Read a letter from the Head Master, Yusuff H. E. School, Comilla, forwarding an application, supported by an affidavit from Munshi Tomizuddin, requesting that the age-entry of his son, Mahamed Majibul Islam, a student in the Matriculation Class of the school, may now be allowed to be corrected and stating that, as the horoscope of the student could not be found in 1914, he could not submit his application on or before the 31st July, 1914.

School, was considered unfit for appearing at the Matriculation Examination, 1917, as his age appeared to be less than 16 years on the 1st of March, 1917, that consequently his son has been transferred to some other school and the Head Master of the Andul H. C. E. School has granted him a transfer certificate specifying his age on January, 1917, to be 15 years and 2 months although his real age at that time was 15 years and 9 months, and requesting that the case of the student may be favourably considered so as to enable him to sit for the Matriculation Examination in July, 1917.

Read also a letter from the Head Master, Andul H. C. E. School, stating that from the admission register for 1910 the year in which Ardhendusekhar Set was admitted to his school, it appears that no entry was made under "age heading" as neither any horoscope nor any written statement from the guardian of the boy was forthcoming.

**RESOLVED—**

That the application of Babu Bijaykesab Set be refused and that Head Master, Andul H. C. E. School, be asked to explain why Ardhendusekhar Set was admitted to the school, when it was not possible to enter the correct age of the boy in the Register and why no steps have been taken since 1910 to remedy the deficiency.

1936. Read an endorsement from the Head Master, Uluberia H. E. School, forwarding, for favourable consideration, an application, supported by an affidavit, from Maulvi Mawahidar Rub, requesting that the age-entry of his son, Muhammad

School, stating that, as in accordance with this office circular No. 112, dated the 22nd August, 1911, the guardians of all the students were informed of the necessity of scrutinising the age-entries of their wards, he did not think it necessary to draw the attention of the applicant to this office circular No. 6770, dated the 26th March, 1914, when that circular was sent to him.

**RESOLVED—**

That the application be refused.

1937. Read also a letter from Babu Parasuram Varma, a member of the Managing Committee of the School, stating that the Inspector of Schools, Orissa Division, in his report on the school for 1915, clearly confirms the prevalent practice of making the teachers' representative on the Managing Committee a member of the Committee for the duration of his service as a teacher and requesting to be informed whether the term of office of such a member is for the duration of his service.

E. L. Mission High English School, Ranchi, may be allowed to appear at the Matriculation Examination, 1918, either as a regular student of the school or as a private student.

RESOLVED—

That the break in the period of study of Jagir Hossein be condoned and that he be permitted to appear at the Matriculation Examination in 1918 as a regular student of the Noapara High English School.

Inspector of Schools, Chittagong Division, and stating that he endorses the recommendation of the Inspector that the recognition of the school may be extended in Mechanics up to the Matriculation standard with effect from January, 1918.

RESOLVED—

That the Noakhali Zila School be recognised as competent to teach Mechanics to the Matriculation standard.

2160. Read a letter from the Asst. Director of Public Instruction, Bengal, forwarding a copy of a report on the Shyamagram Mohinikishore H. E. School, from the Offg. Inspector of Schools, Chittagong Division, and recommending that recognition be withdrawn from the school with effect from 1st January, 1918, unless on a report of the Inspector of Schools previous to that date the condition of the school is shown to have generally improved.

The Inspector in his report makes the continuance of recognition of the school beyond the 31st December, 1917, contingent on the fulfilment of his recommendation made in the body of the report with regard to the committee and the Head Master, and on the general improvement of the school staff, discipline and teaching.

**RESOLVED—**

That the authorities of the Shyamagram Mohinikishore H. E. School be warned that if by the end of September, 1917, they have not reconstituted the Managing Committee in accordance with the recommendations of the Inspector of Schools, taken steps to provide the school rooms with proper ceilings and partitions reaching up to the ceilings, improved the furniture suggested by the Inspector, strengthened and properly organized the teaching staff, introduced decided improvements in the methods of teaching and in the general discipline of the school, the Syndicate will consider whether recognition of the institution should not be withdrawn.

**RESOLVED ALSO—**

That the Director of Public Instruction, Bengal, be requested to inspect the school as early as possible after the 1st of October, 1917, and to favour the Syndicate with a report on the condition of the school.

2161. Read a letter from the Director of Public Instruction, Bengal, forwarding, in continuation of his letter No. 1176, dated the 15th March, 1917, on the subject of the Sadhuhati H. E. School, a permanently recognised institution, a copy of a letter regarding the question of the continuance of recognition of the school from the Inspector of Schools, Presidency Division, together with an inspection report on the school from the Addl. Inspector of the Division, and stating that he endorses the recommendations of the Divisional Inspector who states that the recognition of the school may be allowed to continue up to the 31st December, 1917, by which time it is hoped the school will be able to recover.

It is noted in the report that since the last inspection by the Inspector of Schools, on the 3rd July, 1916, the school has improved somewhat in respect of numerical strength of the teaching staff, but that the staff is still inadequate and inefficient, that the financial position of the school is not sound, that the library and the stock of furniture are very poor and that on the whole the present condition of the school is not satisfactory.

RESOLVED—

That the authorities of the Sadhuhati H. E. School be warned that if by the end of September, 1917, the teaching staff is not strengthened and improved, steps are not taken to improve the attendance of students, effective measures are not adopted to place the finances of the institution on a satisfactory basis, and the necessary black boards and benches not provided, the Syndicate will have to consider whether recognition should not be withdrawn.

RESOLVED ALSO—

That the Director of Public Instruction, Bengal, be requested to have the school inspected as early as possible after the 1st of October, 1917, and to favour the Syndicate with a report on the condition of the school.

2162. Read a joint letter from Dr. P. K. Ray and Dr. Hiralal Halder, on the subject matter of a letter from the Offg. Principal, Scottish Churches College, Calcutta, containing the views of the Governing Body of the College on the report of Dr. Ray and Dr. Halder regarding the question of the extension of affiliation of the college in Ethics up to the M.A. standard.

RESOLVED—

That the Syndicate recommend to the Senate that in extension of the affiliation already granted to the Scottish Churches College in Mental and Moral Philosophy to the M.A. standard it be further affiliated in Ethics and Social Philosophy to the M.A. standard.

2163. Read an endorsement from the Vice-Principal, University Law College, forwarding an application from Amarchandra Ghosh, a student in the 2nd-year class of the college, whose attendance at lectures in Contracts and Torts has fallen short of the prescribed minimum percentage by 3·5 on account of his mother's serious illness and also owing to the early closing of the college and who has passed the Preliminary Examination in Law, praying that he may be allowed to appear

at the next Intermediate Examination in Law as a non-collegiate student, and submitting certificates from his Professors in support of his application, also praying that in case his prayer be not granted the fee submitted by him be ordered to be refunded.

**RESOLVED—**

That the Syndicate recommend to the Senate that Amarchandra Ghosh be permitted to appear at the Intermediate Examination in Law in 1917 as a non-collegiate student.

2164. Read a letter from the Head Master, M.A.A. School, Patna, forwarding an application, supported by a medical certificate, from Md. Nasirul Haq, stating that he was a student in the Matriculation Class of the school last session, that he could not appear at the last school test examination on account of illness, that his medical attendant having advised him to discontinue his study for a short period he took his transfer from the school, and praying that as he has now regained his health he may be permitted to be readmitted to the school and to appear at the Matriculation Examination in July, 1917, after passing a fresh test examination of the school.

That the application be refused.

2352. Read the following Report on the Diocesan College, for 1916-17:—

### **Report on the Diocesan College, Baliganj, for 1916-17.**

(INSPECTED ON THE 2ND MAY, 1917.)

The college is affiliated to the B.A. standard in English (Pass), Vernacular Composition, History (Pass), Economics (Pass), Mathematics (Pass) and to the I.A. standard in English, Vernacular Composition, Sanskrit, Bengali, History, Logic, Mathematics, Geography. It has also a training department, affiliated to the L. T. and B. T. standards.

The college teaches two other subjects, French and Botany in both the I.A. and the B.A. Classes. The authorities are under the impression that they have affiliation in these two subjects up to the Intermediate standard. They teach these subjects up to the B.A. standard on the strength of the Registrar's letter, dated the 28th December, 1912, allowing them to admit students in Botany and French and excusing such students from attendance at lectures in those subjects on condition that they have had sufficient training in them.

We have not been shown nor referred to any record either in the University office or in the College Office to show that the College is affiliated in French and Botany to the I.A. standard.

The college further teaches English (Honours), History (Honours) and Sanskrit (Pass) in which it is not at present affiliated. It has applied for affiliation in English (Honours), Mathematics (Honours) and Sanskrit (Pass). It has not applied, nor does it intend to apply, for affiliation in History (Honours).

The Lady Principal is anxious to give as much help as possible to those students under her charge who desire to read some of the subjects in which her college is not affiliated. Her staff is equally willing to render help. As it is a small women's college and the staff most willing, we think the college may be allowed to teach some of the subjects in which it has not affiliation. But the students who appear in them should not be allowed to appear as the students of the college.

§ This year students of this college have appeared at the B.A. with Botany and at the I.A. with French and Botany.

We set forth below the matters we have considered under the different headings mentioned in Paragraph 3 of Chapter XX of the Regulations.

*(a) Governing Body.*

The Governing Body is as shown in the last report. There has been no change in its constitution and rules. During 1915-16, three meetings were held.

*College Council.*

The members of the staff meet at least twice every term to arrange for the term's work, to frame routine, to arrange for examinations, &c., &c. But no record of the proceedings is kept. A brief record of the proceedings should be kept in a book.

*(b), (d) and (n) Buildings : Accommodation.*

Besides the above there are other rooms in the building used for the residence of the Lady Principal, of five members of the staff, and of the boarders, thirty in number. The Dormitory is on the second floor of the building. It is divided into cubicles by curtains. There is a commodious and well furnished Dining-hall (40'-10" x 25'-10") on the ground floor, where the staff and the boarders dine together.

The furniture is excellent. The rooms are fitted with electric lights and fans. They are well ventilated. Everywhere is neat and tidy.

Of the 55 students on the rolls on the 31st July, 1916, 30 were resident in the college. The rest were day-scholars.

We understood from the Lady Principal that the members of the teaching staff are usually appointed each for a term of three years.

There have been and are likely to be considerable changes in the staff since the Returns were submitted.

(1) Miss Sanctuary, who taught English, left the college in January. It is expected that Miss Gray, B.A. (Dublin), who is now in Quetta will take her place. The Lady Principal is in communication with her.

(2) Miss Gilder, who taught Logic and Economics, has left. Miss C. Dass, B.A. with Second Class Honours in English (1916), is taking Logic in her place. The Lady Principal assured us that she expected an English Lady to come out in the place of Miss Gilder as soon as the war was over. In the meantime local arrangements would be made.

(3) Miss Ebbutt who teaches the B.T. Class will be leaving the college in a month. Her place will be taken from 1st July by Miss Macnathy, a B.A. (Hons.) of the Dublin University, with English, History, and Economics as her subjects. She has also a teachers' training certificate from the London Board of Education.

(4) Miss Parimal Hazra is not now on the college staff. She will be taken in when the college gets affiliation in Honours Mathematics for which they have applied.

(5) Mr. S. R. Bose is not now on the staff. He helps occasionally. He has been engaged when the Prof. of Botany was away on leave.

(6) Madame Tucker who used to teach French left in December, 1916.

At present there is one Lecturer in Sanskrit. Formerly there were two. The Lady Principal told us that, when she got affiliation in B.A. Sanskrit, she would engage a Lecturer who would be either a First Class or a Second Class M.A. in Sanskrit.

Some of the Lecturers—The Lady Principal, Miss E. Jackson, Miss Biswas and Pandit Vidyabhushan have also work in the school attached to the college. It is desirable that the college and the school staffs should be separate.

Some of the Lecturers teach two subjects. Though this is not ordinarily allowed yet in a women's college like this, where the students are so few in number and where there are only isolated candidates for different subjects, it may be allowed, as it will not be found practicable in all cases to fix one teacher to one subject only.

#### (e) Library.

The total number of books in the Library on the 31st May, 1916, was 1055. During the present session (1916-17), books to the value of Rs. 433-8-7 have been purchased. There is no annual grant for the Library. But the Lady Principal is under guarantee to the Director of Public Instruction, in consideration of the grant received from him for the erection of the Library, to spend at least Rs. 1,000 annually for the next three years in the purchase of books. A large order for Sanskrit and Bengali books has already been placed, arrangements are being made to make the Mathematics section adequate for Honours Mathematics, and the next charge on resources will be for the improvement of the English section.

#### (e) Botanical Laboratory.

We have very little to add to the remarks made by the previous Inspectors. Their suggestions have not yet been carried out. The total amount spent on the purchase of Scientific apparatus since the last inspection is Rs. 80.

## (f) &amp; (i) Numerical strength and subjects taught.

On the 31st July, 1916, there were 55 students on the rolls of the college as against 63 on the same date in 1915. The following Table shows the numbers as they were distributed in the different classes and subjects on the same date :—

The registers are well kept. We did not think it necessary to make any enquiry regarding the observance of transfer rules as it did not appear to us to be likely that any occasion for the observance of such rules would arise in a college like this.

The state of discipline excellent.

(l) and (m)

(i) Common Room.

There is a common room for the students. But it is sometimes occupied by classes on account of want of accommodation in the building. There is no separate reading room; but the students are allowed to read in the Library when they have not to attend lectures.

The following papers are subscribed for the use of the students:—

- |                             |                                  |

(ii) *Debating Society.*

Two formal meetings were held during the session 1915-16 under the presidency of Miss H. Jackson and Miss Sanctuary. Several informal meetings were held. More formal meetings might be held.

(iii) *Tennis and Badminton Club.*

There are two full sized Tennis courts and two Badminton courts. The students play Tennis and Badminton. There is no fixed annual grant from the College for games. But each student contributes 8 annas each term to the funds of the club.

Of the books required to be kept by Para. 4 of Chap. XX of the Regulations, those under heads (a), (b), (d), (f) and (g) are properly kept. But no register under head (c) has been kept and the Lady Principal's explanation is that the students of the Institution are so well behaved, that she would consider it a slur on them to keep a register of this description. As regards the register under head (e) of para. 4 we did not ask for inspection of it, our reason being that already stated under heading (h) above.

*The Training Department.*

This Department has, by arrangement with the Director of Public Instruction, been instituted as a temporary measure pending the establishment of a Government Training College for women. It is affiliated to the L. T. and B. T. standards, and has already proved its value. This year it had 7 students, 6 B. T., 1. L. T. all Indian ladies. It is financed by a Government grant of Rs. 500 p. m., intended to cover cost of staff and stipends and incidental expenses, any balance at the end of the year being by arrangement utilised for the general purposes of the college. The staff consists of Miss Ebbutt assisted by Sister Mary Victoria : practical work in the school is also supervised by the trained teachers of the school, as is the common arrangement in Training Colleges.

The financial statement is briefly:—

		Rs.
<i>Receipts—</i>		
Government Grant	...	500 p.m.
College fees ( Rs. 5 p.m. paid out of stipend )	...	85
		<hr/> 535
<i>Expenditure—</i>		
Salary of Miss Ebbutt	...	250
7 stipends of Rs. 15 p.m. each	...	105
Books and other incidentals	...	80
		<hr/> 435

[ The cost of Miss Ebbutt's residence being charged to general college expenses. ]

The results of this class have been consistently good, and we are of opinion that the arrangements are in every sense satisfactory.

*Finance.*

The College and School accounts are mixed up. The Return of Finance submitted (shown in the Appendix) is not sufficiently regular and explicit. The Lady Principal has assured us that from the next year the college accounts will be kept separate from the school and that they will be kept in the way we have indicated.

I dissent from the view that in this institution the College and School staffs should be entirely distinct.

## RESOLVED—

That the authorities of the Diocesan College be informed that students of the college cannot be permitted in future to offer French or Botany at the examinations of this University, unless the college obtains affiliation in those subjects; that the Syndicate considers that steps should be taken to prevent frequent changes in the teaching staff, and that early steps should be taken to separate the school and College staffs as well as the accounts of the two departments and training department.

2353. The Registrar enquired about the arrangements for the next Annual Convocation of the Senate.

## RESOLVED—

That the Syndicate approves of holding more than one Convocation, one for the M.A. and M.Sc., B.L., M.B. and B.E. and another for the B.A. and B.Sc. graduates.

2354. The Registrar reported that he had paid Rs. 900 to Babu Kally Nauth Mitter, C.I.E., Solicitor, to meet law expenses in connection with certain suits in the matter of Kadambini's Mortgage, and the suits of the University *vs.* U. N. De and Shyamacharan Biswas, and of Makhanlal Dutt *vs.* University.

## RESOLVED—

That the action of the Registrar be confirmed.

2355. Read a letter from the Secretary to the Chief Justice of Bengal, reporting that owing to the very many calls on his duties, the Chief Justice will be unable to accept the invitation of the Syndicate to inspect the University Law College during the session 1917-18.

## RESOLVED—

That the Hon'ble Nawab Sir Shamsul Huda be invited to inspect the University Law College during the session 1917-18.

2356. Read a letter from the Hon'ble Justice Sir Asutosh Mookerjee, Kt., regretting his inability to assist in the inspection of the Civil Engineering College, Sibpur.

## RESOLVED—

That Dr. C. E. Cullis be appointed to inspect the Civil Engineering College, Sibpur, in place of the Hon'ble Justice Sir Asutosh Mookerjee.

2357. Read a letter from the Offg. Principal, Patna College,

stating, with reference to an application for permission to join the 4th-year B.Sc. Class of a college affiliated to this University with Honours in Physics in the beginning of the session 1917-18 submitted by Gorakhnath Trivedi, who was rusticated from the 4th-year Class of the Patna College with effect from the 25th September, 1916, up to the end of the academical year 1916-17, for taking an active part in a strike at the college, that although the punishment inflicted upon the student by the Governing Body of the Patna College, has now been carried out, his application for re-admission to the college has been refused on the ground that the student has not shown genuine signs of regret for his previous conduct and has not returned a text book which he borrowed from one of the Professors in July, 1916, though he was called upon to do so in January, 1917, and that if the student be permitted to continue his study in some other college he should be warned regarding his conduct.

RESOLVED—

That Gorakhnath Trivedi be directed to return at once the text-book borrowed by him from one of the Professors of the Patna College; that permission be granted to him to join another college on an undertaking being given by him that he will strictly obey all college rules, and that the Principal, Patna College, be asked to state the grounds for the rustication in the transfer certificate.

2358. Read a letter from Babu Haranath Basu, forwarding a printed note on the writings of the late Babu Chandranath Basu, and requesting that, as the very poor circulation of the book called "Sanjam Siksha" by the late Babu Chandranath Basu, which is one of the text-books for the Matriculation Examination, shows that it is not taught in most of the High Schools, the Syndicate may be pleased to issue necessary orders so that the book may be systematically taught in all the H. E. Schools.

RESOLVED—

That the book be referred to the Board of Studies in Sanskrit Languages.

2359. Read an application from Raghunath Nayak, who passed the Preliminary Examination in Law in 1912, and who has been obliged to discontinue his study since then owing to unavoidable circumstances, praying that, as a special case, he may now be permitted to join the 2nd-year Class of a Law College affiliated to this University.

**RESOLVED—**

That Raghunath Nayak be permitted to join the 2nd-year Class of an affiliated Law College.

2360. Read a memo. from the Principal, Murarichand College, Sylhet, forwarding an application from the Head Master, Jubilee High School, Sunamganj, requesting that his son, Lala Hemantakumar Dey, who appeared in the first five papers in English at the last B.A. Honours Examination from the Ripon College, but could not continue to sit for the Examination on account of illness, and who now wishes to join the Murarichand College, Sylhet, as the climate of Calcutta does not suit his health, may be permitted to join the Murarichand College, Sylhet, and to appear at the B.A. Examination in 1918 with Honours in English although the college is not affiliated in English up to the B.A. Honours standard, and (the Principal) stating, that the English staff of the college consists of 3 professors one of whom was first in the First Class at the M.A. Examination of 1915 and that lectures in English Honours can be provided for the student if he is permitted to appear at the next B.A. Examination from the college with Honours in English.

**RESOLVED—**

That Lala Hemantakumar Dey be permitted to appear at the B.A. Examination in 1918 as a collegiate student with Honours in English on condition of his passing the test-examination to be held at the Ripon College.

2361. Read a letter from the Principal, T. N. Jubilee College, Bhagalpur, forwarding, with his recommendation, an application from Hari Narayan, an unsuccessful candidate at the last I.A. Examination, who appeared at the Examination from the St. Columba's College, Hazaribagh, with Botany as one of his subjects in which he secured pass marks and who now wishes to join the T. N. Jubilee College, Bhagalpur, as it will not be convenient for him any more to leave Bhagalpur where his parents live, praying that he may now be permitted to join the T. N. Jubilee College and to appear at the next I.A. Examination with Botany as one of his subjects although the college is not affiliated in it and (the Principal stating that arrangements can be made for giving tutorial help to the applicant at the T. N. Jubilee College with the co-operation of the Professor of Botany at the Sabour College.

**RESOLVED—**

That Hari Narayan be permitted to join the T. N. Jubilee

College and to offer Botany at the I.A. examination in 1918 on condition of his submitting a certificate that he has received effective tutorial assistance from a person competent to teach Botany to the I.A. standard.

2362. Read an endorsement from the Principal, Daulatpur Hindu Academy, forwarding, for favourable consideration, an application from Lalitmohan Das, an unsuccessful candidate at the I.A. Examination, 1917, having Logic, Botany and Sanskrit as the combination of his subjects, who, on account of straitened circumstances, will not be able to join any college other than the Hindu Academy at Daulatpur, praying that, as the combination of Botany with Sanskrit and Logic will not be taught in the college during the session 1917-18, and as he secured pass marks in Botany at the I.A. Examination and obtained in that subject good marks in all the college periodical examinations, he may be permitted to appear at the I.A. Examination in 1918 without being required to attend lectures in Botany, and enclosing a crossed list in support of his application and (the Principal) stating that the applicant will find no difficulty in attending practical classes in Botany.

**RESOLVED—**

That Lalitmohan Das be permitted to join the Hindu Academy, Daulatpur, and to offer Botany at the I.A. Examination in 1918, on condition of his submitting a certificate that he has received effective tutorial assistance from a person competent to teach Botany to the I.A. standard.

92, UPPER CIRCULAR ROAD.

CALCUTTA,

3rd July, 1917.

TO

THE REGISTRAR,

CALCUTTA UNIVERSITY

SIR,

With reference to your letter No. 13196, dated the 30th June, I have the honour to inform you that I inspected the Chemical Department of the City College on the 2nd of July. I have the honour to submit the following report for the consideration of the Hon'ble the Vice-Chancellor and Syndicate.

The Chemistry staff of the college in the graduate stage is very strong and consists of Babu Dhirendranath Mukerjee, M.A. (Gold Medalist, 1907). Babu Pramathanath Sanyal, (M.A., Class II. 1907) and Babu Priyadarajan Ray, M.A. (Gold Medalist, 1911).

The laboratory accommodation is as follows :—

Practical Chemistry	...	1 room 17' × 39 - 3"
Ditto.	..	1 " 16' - 9" × 13'
Balance room	..	1 " 17' × 10'
Store room	..	1 " 17' × 10'

There is a fairly good library and the collection of chemicals and apparatus is sufficient.

There is a good supply of gas and water.

There is no fixed annual grant for the laboratory, but during the years 1911-16, the college authorities have spent over Rs. 30,000 for the Physics and Chemistry departments.

Taking the above into consideration, I have no hesitation in recommending that the college be affiliated in B.Sc. Pass Chemistry from the commencement of the session 1917-18.

I have the honour to be,

SIR,

Your most obedient servant,

P. C. RAY.

CALCUTTA.

*The 7th July, 1917.*

To

THE REGISTRAR,  
CALCUTTA UNIVERSITY.

SIR,

We inspected the Bethune College on the 30th June, and one of us interviewed the Lady Principal of the college on the 6th July, in connection with the application of the Director of Public Instruction, Bengal, for the

extension of its affiliation in English up to the B.A. Honours standard, Sanskrit up to the B.A. Honours standard and Economics and Political Philosophy up to the B.A. Pass standard.

It was not possible to send a report to the Hon'ble the Vice-Chancellor and Syndicate earlier as some important information could not be given by the Professor-in-charge, the Lady Principal having gone to Ootacamund. Further as no reply was received from her to a letter which was sent by post there, we had to wait till she returned on the 5th July.

The Director of Public Instruction, Bengal, explains in his application for affiliation the reason of its very late submission, viz., that the question whether the additional expenditure involved should be incurred in the present exceptional financial conditions was for sometime before the Government of Bengal.

She will mainly teach English Composition, essay writing, etc. She appears to be qualified to teach these subjects in all the College Classes.

(2) Babu Paresnath Sen, B.A. (Cal.), 1882, Professor. He is a teacher of long experience and is in our opinion quite competent to teach English up to the B.A. Honours standard.

(3) Babu Bijaygopal Mukerjee, M.A. (Cal.), 1896, Professor. He was the Gold Medalist of his year in English and is a man of ability and experience.

The staff in English is also in our opinion numerically adequate to teach English up to the B.A. Honours standard. The number of students in each class being small, a staff of three will be quite sufficient.

(B) *Sanskrit.*

At present there is only one lecturer, Babu Debendranath Ray, M.A. (Cal.), III Class in Sanskrit (Group D), 1903; B.A. (Cal.), 1902 with First Class Honours in Sanskrit; Radhakanta Gold Medalist. He is an experienced teacher.

The Director of Public Instruction in his application for affiliation, says that he is authorised by the Government of Bengal to say that when the extended affiliation asked for is granted, the appointment of an additional Lecturer in Sanskrit and Bengali will be sanctioned.

The new Lecturer should be, in our opinion, at least a Second Class M.A. in Sanskrit.

A staff of two will be numerically adequate as the number in the two Honours classes will be very small, and if the new Lecturer be at least a Second Class M.A. in Sanskrit, the staff will be competent to teach Sanskrit up to the B.A. Honours standard.

(C) *Economics and Political Philosophy*

The present Lecturer in History, Babu Bireswar Bhattacharyya, is an M.A. of the Panjab University in two subjects, History and Economics, Class III in each. He taught B.A. students in a college attached to that University.

The proposed arrangement is that Mr. Bhattacharyya will take the classes in Political Economy and Political Philosophy and another lecturer whose appointment will be sanctioned when the extended affiliation is granted (as the Director of Public Instruction, Bengal, says in his application) will teach History in the College.

This new Lecturer ought to be at least a Second Class M.A. in History.

One Lecturer can certainly take up the whole work in B.A. Pass Economics and Political Philosophy where the number is sure to be very limited. The only question is whether Mr. Bireswar Bhattacharyya, who is a third-class M.A. in Economics and a man of limited experience, may be entrusted with it. From inquiries made about the course he took in Economics and other relevant inquiries, we are satisfied that he is fit to teach the subject up to the B.A. Pass standard.

The course he took in Economics included (1) General Economic Principles: (2) Indian Economics: (3) Political Philosophy and Sociology: (4) Currency and Finance: (5) International Trade: (6) Essay on a general subject.

A detailed time-table for each of these three subjects is given below. The Lady Principal says that this time-table which she accepted at the suggestion of one of the Inspectors will be followed in the current session,

but that it may be modified in future, if modifications are called for in the light of experience.

### III. Accommodation.

Size of the rooms :—

1st room ...	19 ft. 11 in. by 18 ft.
2nd " ...	20 ft. by 18 ft.
3rd " ...	20 ft. by 12 ft.
4th " ...	20 ft. by 12 ft.

There are spare rooms in the College and Principal's quarters which may be used as class rooms if required.

2 rooms in the College which measure 9 ft. by 9 ft. each.

One room in the Principal's quarters measuring 21 ft. by 16 ft.

Another room there measuring 16 ft. by 16.

The accommodation will be quite adequate if the extended affiliation prayed for is granted. All the existing classes are small and the new classes will be so also. We were informed that the highest number of students that any class had last session was 29 and the numbers in either the English or the Sanskrit Honours Classes were not likely to exceed eight.

*IV. Library.*

We mentioned the new books that would be necessary in view of the extended affiliation. We have already supplied the college authorities with a list of these books and we have been informed that they will be purchased for the college Library. Already there is a fairly good collection of books in the three different subjects for which the new affiliation is asked.

*V. Recommendation.*

In view of the fact that there is only one college for female students affiliated to the B.A. standard in the northern part of Calcutta, the other college being four miles distant, and further in view of the fact that capable student of this college have again and again in the past appeared at the B.A. Honours Examination or Pass Examination in Economics as non-collegiate students, though they had received their teaching in the college, and lastly in view of the fact that there is an undoubted demand for instruction of female students in English and Sanskrit up to the B.A. Honours standard and Economics and Politics up to the B.A. Pass standard, we recommend that in extension of the affiliation already enjoyed by the college, it be further affiliated in English and Sanskrit up to the B.A. Honours standard and in Political Economy and Political Philosophy up to the B.A. Pass standard from the current session 1917-18 on the condition that two new lecturers (one of whom must be at least a second class M.A. in Sanskrit and the other at least a second class M.A. in History) are added to the existing staff.

We have the honour to be,
